

Laurie Rohen, CFM

Laurie currently manages 1 million square feet of the Raymond James headquarter campus in St. Petersburg, FL. In addition to the responsibilities of the facility operations she is also responsible for Workplace Health & Safety of the entire organization in addition to the Switchboard Operators(yes they have live people answering the main lines).

She has over 25 years+ of experience managing facilities or procuring the goods and/or services for Corporate Real Estate and Facility departments.

She has worked for many Fortune 500 companies such as JLL, BP, Bovis Lend Lease, Sears and Univision during her 25 year+ tenure.

She earned the CFM certification 3 years ago (when only 9 core competencies were included) shortly after becoming a member of the IFMASuncoast Chapter. The Chapter supported an instructor led course which was a tremendous help in passing the CFM exam and earning her credential.
